

WILSON STRUCTURAL CONSULTANTS, INC.

BELIZE CONDOMINIUM

Structural Engineering Services

Wilson Structural Consultants, Inc. is a full-service structural engineering firm. Our services include: structural design, contract administration, shop drawing review, construction observations, analysis of existing structures and report preparation. Our project work includes: commercial, educational, institutional and manufacturing facilities as well as churches, residential, high-rise residential and mixed use structures.

YBOR BREWERY RESTORATION

Our Mission

As a structural engineering firm in the state of Florida our mission is to provide a high level of service to our clients while being a proactive member of the design team. In doing so, we hope to enhance our reputation as a quality structural engineering firm and increase our level of commitment and involvement in the well being of our state and our community.

Our History

Wilson Structural Consultants, Inc. was founded by Richard Wilson in Colorado Springs, Colorado on January 1, 1997. Using a variety of contract employees, this one-person firm completed a number of projects, large and small, in both Colorado and Florida.

With a growing demand from the Florida market, the firm relocated in late 1998 to Sarasota, Florida. Wilson Structural Consultants began adding full time staff and key personnel, which would eventually form the nucleus of a rapidly growing and successful structural engineering firm. Today Wilson Structural Consultants is one of the largest engineering firms in the area and has an excellent reputation statewide.

Our Future

As Wilson Structural Consultants matures, we continue to expand our markets and services throughout the state of Florida and beyond. Our knowledge base and roster of talent continues to broaden, and with it, so too does the scope and complexity of our projects, and our ability to provide quality service to our clients. It is our belief that our staff will continue to develop as professionals and as members of our engineering family – focused on being an integral part of the expansion and development of the Florida markets. We look forward to the future with great excitement and anticipation.
